

Mobile Patrol Software

Patrol allows the customer to define the specific patrols and associated checkpoints necessary to ensure that their facilities and campuses are secure. Using the latest mobile technology and communications, the guard controls the safety and proper operational condition of their own and their tenants' property.

Ease of Use & Flexibility

- Fast / Intuitive Patrol Setup
- Multiple Instructions & Updates
- Multiple Checkpoints & Requirements
- Easy Multi-Tour Duplication
- Expedite Visitor Entry for Events

Communication

- WiFi / 3G Connectivity
- Data Replication
- Database Search Capabilities
- Real Time Messaging
- Email Alert Notification
- Network Infrastructure Adaptability

Incident Report			
Community: Dev	Date/Time: 1/25/2009 @ 12:44:30 PM		
Location: Front Gate	Reported By: Marou, Jeremy		
Type of Incident
